## Présentation

### Activité détaillée

A team in Paris is dedicated on Offshore Renewable Energy providing engineering services and project management. Globally, our market-leading services and technologies provide engineering know-how to renewable projects worldwide. We are a trusted partner for renewable energy developers, lenders, investors and operators worldwide in onshore wind, offshore wind, solar, hydro, wave and tidal. Our dedication and experience, combined with innovative product developments, have positioned us as one of the leading organisations within the renewables industry today. Our capabilities include: Asset management and operations Due diligence Feasibility Measurement and analysis Optimisation services Project development, engineering and construction Our in-depth technical, engineering and installation capability ensures our services can be tailored to any stage of a project. Our focus is on optimising assets, from the early stages of site selection and feasibility, right through to operation and maintenance, to enhance production, safety and profitability.
